2. PROJECT DESCRIPTION

The Vaal River Eastern Sub-System (VRESS) supplies water to all but one of ESKOM's power stations located in the Mpumalanga Highveld. The VRESS comprises a number of different sub-systems, namely: the Komati Government Water Scheme, the Usutu Government Water Scheme, the Usutu-Vaal Phases 1 and 2 Government Water Schemes and the Slang River Government Water Scheme. ESKOM is concerned with the capacity of the VRESS to supply water to its power stations which were previously mothballed but are now being re-commissioned and returned to service to meet its power generation requirements.

As a consequence of such increased power generation requirements, ESKOM anticipates that additional water demands will be placed on the Komati Water System which will exceed the long term yield of this sub-system and require augmentation from both the Usutu and Usutu Vaal Government Water Schemes.

ESKOM approached the Department of Water Affairs and Forestry to implement the Komati Water Scheme Augmentation Project as a Government waterwork within the Usutu Vaal Scheme and agreed to pay for same in terms of the Pricing Strategy.

The proposed scope of the Komati Water Scheme Augmentation Project entails the modification of the inlet structure and manifold and additions to the Rietfontein Pump Station to enable the additional supply of water at 2,14 m³/s, transferred through a new 58,4 kilometre pipeline to the Duvha Power Station reservoir, at a flow rate of 1,6 m³/s and the remaining 0,54m³/s of water transferred through a new 12,9 kilometre pipeline to the Matla Power Station reservoir. The cost of the Project is estimated at approximately R1,736 million at 2008 price levels. Since the Project will be supplying water for commercial use, the Pricing Strategy requires that it be funded off-budget and the full costs thereof be recovered from ESKOM and third party users.

3. BUSINESS DRIVERS

TCTA is a Schedule 2 Public Entity under the Public Finance Management Act that undertakes bulk raw water infrastructure development on behalf the Republic of South Africa. The initial notice of establishment, which was published in the Republic of South Africa (RSA) Government Gazette No. 2631 of 12 December 1986, was amended in RSA Government Gazette No. J21017 of 24 March 2000. TCTA's original mandate for the implementation of the South African component of the bi-national Lesotho Highlands Water Project was extended in 1992 to take on all the financial responsibilities of the South African Government under the Treaty. The most recent amendment (March 2000) enables the Minister to direct TCTA to undertake additional functions under Section 103(2) of the National Water Act (Act 36 of 1998).

TCTA, as a Public Entity is bound by the Preferential Procurement Policy Framework Act 5 of 2000.

On 29 September 2008, the Minister of Water Affairs (then the Minister of Water Affairs and Forestry) issued a written directive in terms of Section 103 (2) of the National Water Act to TCTA authorising it to undertake the funding and implementation of the KWSAP as a Government Waterworks. KWSAP, therefore, forms part of the multi-project environment the organisation has become.

DWA, TCTA and Eskom, together with their legal representatives, concluded lengthy negotiations towards finalisation of the Water Supply Agreement (WSA). This Agreement has since been signed by Eskom and is awaiting signature by DWA. An Implementation Agreement by DWA and TCTA is almost finalised except for minor comments from DWA which will be cleared in due course. This Agreement will be signed by DWA at the same time as the WSA. The initial credit rating for KWSAP was conducted by Fitch Ratings with the credit rating report awaited.

4. SCOPE OF WORK

The total funding requirement to implement the KWSAP project is estimated at R2.7 billion. TCTA requires long term funding proposals for a minimum of R500 million from qualifying financial institutions to implement the KWSAP project. In its funding philosophy, TCTA seeks to achieve the lowest possible cost of funding within a risk sensitive framework that will benefit end users. A portfolio approach will, thus, be applied where both the quantitative (all-in-cost) and the qualitative attributes (risk management factors) will be considered in order to determine the winning proposal(s).

The loans being sought will need to satisfy the following criteria:

- fund the forecast cumulative debt made up of capital expenditure and finance costs.
- repay the short term borrowing for KWSAP against the bridging borrowing facility.
- achieve asset and liability matching.
- allow for optimal capital structure (fixed to floating rate ratio).
- address financial risk management.
- ensure sufficient funding throughout the life of the project.

The loan facility should be for the duration of 20 years after construction with capital moratorium and capitalisation of interest during the construction phase and for a maximum of five (5) years post construction.

A briefing session will be scheduled for 7 September 2010 to give further clarity on the project.

5. PROCUREMENT PROCESS FOR LONG-TERM FUNDING FROM COMMERCIAL INSTITUTIONS

This Request for Proposals is the starting point for the procurement of long term funding for KWSAP from commercial, investment institutions and banks and will follow the process as outlined below (7).

6. SUBMISSION REQUIREMENTS

The documentation submitted must comply with TCTA conditions of Tenders.

- 6.1 Annexure A Covenant and Integrity Affidavit
- 6.2 Annexure B Bribery and Corruption Information
- 6.3 Annexure C Enterprise Information Declarations
- 6.4 Annexure D Enterprise Information Affidavit
- 6.5 Tax Clearance Certificate
- 6.6 BBBEE Scorecard and Certificate

7. EVALUATION OF PROPOSALS

The evaluation of proposals will be based on their conformance with the broad objectives of TCTA's funding strategy as outlined in section 4 above. An evaluation team has been appointed which will undertake the evaluation of each proposal. Only once proposals have been received and reviewed can the evaluation team determine whether these proposals meet the broad funding strategy as highlighted above.

The proposals will be opened at TCTA and the initial evaluation will be carried out to check for compliance. The evaluation panel will then carry out qualitative and quantitative evaluation. The TCTA Project Finance & Treasury team will determine the internal rate of return for each proposal. The internal rate of return will be used to calculate the score for pricing for each proposal in terms of the PPPFA.

TCTA's funding strategy precludes it from obtaining funding for a project from a single source as such the Project Finance & Treasury team will explore various options for structuring loan portfolios from the individual proposals to ensure that KWSAP is adequately funded. The allocation of portions of the amount to be funded will, in general, follow the ranking of the proposals from the proposal most favourable to TCTA to least favourable in terms of (meeting both qualitative and quantitative criteria, as shown below) to ensure that TCTA has the most cost effective loan portfolio from the proposals.

Evaluation will be done taking into account the following table and indicative weightings as stipulated.
