3. BACKGROUND

Trans-Caledon Tunnel Authority (TCTA) is a public sector entity, established in terms of Notice No. 2631 published in Government Gazette No. 10545 dated 12 December 1986, as amended by Notice No. 277 published in Government Gazette No. 21017 dated 24 March 2000 and listed in Schedule 2 of the Public Finance Management Act of 1999. TCTA implements large infrastructure projects ("Projects") for the supply of bulk raw water on behalf of the Department of Water and Sanitation (DWS) through Directives issued by the Minister of Human Settlements, Water and Sanitation ("The Minister"). The technical complexity and diversity of engineering variables applicable to TCTA's projects warrant dynamic support of these functions.

In reinforcing its Project Implementation Methodology, TCTA establishes professional panels, comprising experts/specialists in the Engineering to enable it to benchmark design of its projects,

implementation, operations and management activities across its project portfolio against international best practice. The Panel of Expert (PoE) advisors independently advise, review, verify, optimise the designs and give assurance that the general designs, optimisation and construction supervision of major projects including electromechanical, operations and maintenance as well as the contracting strategies, procurement and contracting documentation including dispute resolution aspects of the project are implemented in accordance with international standards and best practice guidelines. Furthermore, a member or members of the PoE can also be expected to act as peer-reviewer(s) of associated knowledge management products.

This RFB seeks to appointment individual Experts in *inter-alia* the following engineering disciplines Dams, Tunnels, Electro-Mechanical, Geotechnical, Process, Chemical, Control and Instrumentation and Operations and Maintenance with experience in the design, construction, operation and maintenance of bulk water supply and water treatment (specifically AMD) infrastructure, to serve on the PoE advisors. It further seeks to appoint a Contractual Expert with experience in the compilation of related construction contract documents, contract administration, claims management and dispute resolution based on the *FIDIC* suite of contracts as PoE advisor.

Individual may submit their respective bids in their personal capacity. Companies on the other hand may submit more than one individual resource, but the resources will be evaluated on individual basis.

Individual(s) applying via registered entities.

Tenders submitted by registered entities are based on the services of specified individual(s) for the duration of their association with the registered entity. Only the credentials of the proposed individual(s) will be evaluated. Should the individual(s) leave the services of the entity, the entity shall replace the individual(s) with another of equal or better qualifications, experience and other evaluated indicators to be approved by TCTA or contract with the registered entity may be terminated in respect of that individual(s). Readmission of the individual(s) on an independent basis will be subject to successful negotiations and compliance with mandatory requirements.

Individuals appointed on the PoE advisors may be conscripted from time-to-time to assess, advise, review and give assurance on subject matter performance on TCTA's Projects.

TCTA requires a panel of high level, industry-recognised expert strategic and technical advisors to enable effective fulfilment of TCTA's project implementation quality assurance and risk identification and management in accordance with international best practice including knowledge management.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
